DETAILED ACTION

On December 8, 2006, an Office Action was sent to the Applicant rejecting claims 1-19, 21-39, and 41. On April 20, 2007, the Applicant responded with arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-19, 21-39, and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Delfer (5,496,991), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed April 20, 2007 have been fully considered but they are not persuasive. The Applicant argues that Delfer does not disclose "communicating the payment instructions directly to the payee to initiate payment of the amount" or "wherein the payment remittance information is arranged within a data structure, the data structure comprising one or more data fields to hold data that the payor can enter, and the payment remittance information further comprises a structured remittance data that is kept hidden for the payee". In response, Delfer discloses "communicating the payment instructions directly to the payee initiate payment of the amount" (The bar coded information containing payment instructions is communicated to the sole vendor who may have funds directed to their depository, which is being interpreted by the

Art Unit: 3691

Examiner as payment instructions being communicated directly to the payee to initiate payment of the amount—col.6, lines 30-40. The instructions are communicated from a memory.) and “wherein the payment remittance information is arranged within a data structure, the data structure comprising one or more data fields to hold data that the payor can enter, and the payment remittance information further comprises a structured remittance data that is kept hidden for the payee” (The structured remittance data is kept hidden from the payee in that the payor provides information for funds transfer to someone other than the payee (a billing service provider) which the payor does not have access to—col.4, lines 1-15 and col.6, lines 30-50).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
